

MARY ROSE CAMP

SENIOR GIS ANALYST

CAREER SUMMARY

GIS professional with 6+ years of experience delivering data-driven geospatial analysis and ArcGIS Online solutions. Experienced in ArcGIS Online administration, advanced spatial analysis, and stakeholder-focused reporting in nonprofit and public-sector environments. Proven collaborator with technical and non-technical teams, committed to mission-driven work and continuous skill development.

EXPERIENCE

GIS Analyst: Wildfire Management

American Forest Foundation | Mar 2023 - Jan 2026 | Remote

- Performed advanced spatial modeling and analysis to identify priority forest treatment areas, supporting strategic planning and resource allocation across California.
- Translated complex ecological datasets into clear maps, visualizations, and reports for funders and program partners.
- Collaborated with foresters, operators, and regional partners to align GIS outputs with community needs and environmental best practices.
- Maintained and refined GIS datasets to support ongoing analysis, reporting, and monitoring workflows.

GIS Consultant: Forest Management

International Conservation Foundation | Apr 2024 - Jul 2025 | Remote

- Designed, configured and administered the organization's ArcGIS Online environment, including user access, collaboration spaces, data organization and management.
- Delivered GIS Trainings to nontechnical coworkers and developed map products highlighting on-the-ground conservation work for funder reporting and stakeholder engagement

GIS Consultant: AGOL Tracking & Monitoring

National Cleanup Day & Earth Day | July - Sep. 2022 | Remote

- Developed web maps, dashboards, apps and surveys using Survey123 Connect and ArcGIS Online to support global cleanup tracking.
- Built dashboards to monitor submissions and program activity.

GIS Specialist: Decision Support

Manatee County Gov't | Feb 2019 - May 2022 | Bradenton, FL

- Supported county decision - using ArcGIS Pro and ArcGIS Online for analysis, data collection and reporting.
- Designed and deployed county-wide Survey123 forms and presented GIS findings to NGOs and county staff.

CERTIFICATIONS

Python Certification | SQL Certification | Cartography MOOC | Learning ArcGIS Pro | Arcade Basics

EDUCATION

M.S. Geosciences

Florida Atlantic University

2023 - 2024 (Program Paused)

Relevant Completed Coursework:

Database Management Systems, Remote Sensing, LiDAR, Principles of GIS

B.A. Geospatial Analysis & Geography

University of South Florida

Graduated: 2019

TECHNICAL SKILLS

- **GIS & Analysis:** ArcGIS Pro, ArcGIS Online, Web Maps, Dashboards, Survey123, spatial analysis & modeling
- **Data & Databases:** GIS data management, metadata, relational database concepts, SQL
- **Automation:** Python for GIS scripting & workflow automation (foundational)
- **Visualization:** Cartography, dashboards, presentation-ready graphics
- **Work Style:** Fully remote collaboration, cross-functional stakeholder support
